## Playing Time Policy for League Play

To promote player development while maintaining a competitive environment. By adhering to this playing time policy, we aim to foster both competitive spirit and individual player development, ensuring all players gain valuable experience on the field.

1. Every player should aim to receive at least half of the average playing time across all games in the season.
2. While some players may have limited minutes in certain games due to competitive circumstances, coaches should ensure that these players receive more playing time in other games to balance their overall minutes. The goal is to provide equitable playing time opportunities, recognizing that each game's dynamics may affect individual minutes.
3. Coaches will make decisions based on the competitive needs of the game, player development goals, and the overall team strategy. Adjustments will be made to playing time throughout the season to meet the minimum playing time policy.
4. Coaches will communicate with players and parents regarding playing time expectations and any adjustments made throughout the season. Feedback will be encouraged to ensure understanding and transparency.
